Exhibition of A Level work

Make final outcomes in 15 hour exam

Final piece planning

Through further recording, experimentation and reference to the work of others, develop your personal direction and ideas towards a final outcome

Development of ideas through analysing and then creating inspired photographs and images to your chosen photographers work. Exploration of a wide range of processes and techniques

Create a series of final outcomes to your coursework project

February: Exam theme released by exam board
Begin exam project (60%)

In response to the exam theme record ideas through digital and darkroom processes.

TERM THREE: Make final outcomes

Final piece planning

Through further recording, experimentation and reference to the work of others, develop your personal direction and ideas towards a final outcome

TERM TWO: Development of personal direction

Development of ideas through analysing and then creating inspired photographs and images to your chosen photographers work. Exploration of a wide range of processes and techniques including revisiting darkroom / studio techniques

There are 4 assessment objectives used to mark A2 photography
A01 - analysing the work of others
A02 - experimenting/refining the use of materials/techniques
A03 - recording ideas
A04 - producing a final outcome

Review your project and decide on your direction for Year 13.

13
