### IMPORTANT:

- All students study English (Language and Literature), Maths, Science, Personal Development and Games throughout Key Stage 4. Students must indicate a preference for following the Triple Science pathway but this is not an optional subject. See Options booklet for further details.
- All students study RS in Years 9 and 10 and will sit a full GCSE in RE/Philosophy & Ethics at the end of Year 10.
- Some students may be chosen to go to college in Years 10 and 11. They will drop two optional subjects for this. Students will receive more information about this in Year 9, but the subjects they drop will be determined by the timetable and their options.
- Some students who have received literacy or numeracy support in Key Stage 3 will have the opportunity to continue with this at Key Stage 4. They will take only 3 options. Mr Aschettino will discuss this with these students and will inform parents.

### Frequently Asked Questions:

- What does 'Key Stage 2 Test Scores Average' mean?  
At the end of Year 6, most students sat exams and were given a National Curriculum scaled score. Any student with a scaled score of greater than 90 must take one of History, Geography, French, German, Spanish or Computer Science. Students with a score lower than 90 may choose not to take one of these subjects and may have 4 free choices for their GCSE options.
- Why do I have to do one of History, Geography, French, German, Spanish or Computer Science?  
The Government has stated that all students must have a broad and balanced curriculum until the end of Key Stage 4, and they include all of these subjects in their expectations. We do not expect students to do all of these subjects, but they must do one of them.
- What's the EBacc and do I have to do it?  
The English Baccalaureate is an unofficial qualification which shows whether a student has English, Maths, Science, a language and either History or Geography. Some Russell Group universities (amongst the best in the country) say they like students to have it, and if you have aspirations for further study at an academic level, you should seriously consider it.
- Why can I only do ONE Technology subject?  
These subjects are now under one single GCSE qualification. You *can*, however, do Food & Nutrition with a Technology subject.
- Why can't I do Art AND Ceramics?  
These two subjects are the same GCSE. Colleges and employers will only count one of them. If you really think you would like to do this, please speak to Mrs Sorrell.
- Why can't I do Music AND Music Technology?  
For the same reasons as Art and Ceramics.

### CHECKLIST FOR STUDENTS:

• I have given my 4 subjects in priority order	
• I have chosen at least one of History, Geography, French, German, Spanish or Computer Science	
• I have given 3 reserve subjects	
• I have indicated whether I want to do EBacc subjects	
• I have indicated whether I want to be considered for Triple Science	
• I have signed the form	
• My parent/guardian has signed the form	
• My form tutor has signed the form	

**NOW HAND IT IN TO YOUR FORM TUTOR!
